Letter Report: Comparative Analysis of Actual Cash Collections to the Revised Revenue Estimate Through the 1st Quarter of Fiscal Year 2006

August 17, 2006
The Honorable Linda W. Cropp  
Chairman  
Council of the District of Columbia  
1350 Pennsylvania Avenue, NW, Suite 504  
Washington, D.C. 20004

**Letter Report:** Comparative Analysis of Actual Cash Collections to the Revised Revenue Estimate Through the 1st Quarter of Fiscal Year 2006

Dear Chairman Cropp and Members of the Council of the District of Columbia:

This letter report presents the Office of the District of Columbia Auditor’s (ODCA) comparison of the District of Columbia’s (District) actual cash collections through the 1st quarter of fiscal year (FY) 2006 to the revised FY 2006 revenue estimate for the 1st quarter.

**BACKGROUND**

In February 2005, the District’s Chief Financial Officer (CFO) issued a certified FY 2006 original revenue estimate$^1$ of $4.515 billion.$^2$ The $4.515 billion non-dedicated General Fund revenue estimate was used in building the FY 2006 budget. The CFO revised the FY 2006 revenue estimate in June 2005 from $4.515 billion to $4.436 billion, a decrease of $79 million. In September 2005, the CFO revised the estimate upward to $4.487 billion, which was a $51 million increase over the $4.436 billion June 2005 estimate and $28 million below the original $4.515 billion FY 2006 estimate.$^3$

---

$^1$The FY 2006 revenue estimate presented in this report represents the general purpose general fund revenue estimate and does not include the FY 2006 dedicated non-tax “O” type revenue estimate of $264.3 million. However, an overall discussion of dedicated non-tax “O” type revenue is included in a later section of this report.

$^3$On December 16, 2005, the District’s CFO submitted to the Mayor and Council a revised FY 2006 revenue estimate of $4.519 billion. The $4.519 billion excludes any adjustments for tax policy changes. However, ORA used the September 2005 estimate in the cash collections report for the 1st quarter. Therefore, for consistency, the Auditor used the September revised revenue estimate in this analysis.
METHODOLOGY

In conducting the comparative analysis, the Auditor reviewed: (1) the $4.487 billion estimate; (2) the FY 2006 1st quarter Comparative Report of Cash Collections by Funds prepared by the Chief Financial Officer’s Office of Revenue Analysis (ORA); and (3) other relevant information. Additional information reviewed by the Auditor included economic data from several sources, including the National Oceanic and Atmospheric Administration (NOAA), the Federal Reserve Board Beige Book (Federal Beige Book), the District’s Department of Employment Services (DOES), the Greater Capital Area Association of Realtors (GCAAR), Smith Travel Research, Washington, D.C. Convention and Tourism Corporation, the Consumer Price Index (CPI), and CB Richard Ellis a real estate services company.

The Auditor interviewed ORA officials regarding cash collections through the 1st quarter of FY 2006 and representatives from private as well as governmental organizations regarding their knowledge of overall economic conditions that affect the District.
RESULTS OF ANALYSIS

Actual cash collections from: (1) tax, (2) non-tax, and (3) other financing sources through the 1st quarter of FY 2006 totaled $782.9 million, which were $29.2 million, or 3.9%, above the $753.7 million revised estimate through the 1st quarter.\(^4\) The $782.9 million in actual cash collections represented 17% of the $4.487 billion revised FY 2006 revenue estimate.\(^5\) Collections through the 1st quarter from tax, non-tax, and other financing sources are presented below.

- **Tax** - total tax collections were $683.5 million, which were $23.8 million, or 3.6%, above the revised tax estimate of $659.7 million through December 2005.
- **Non-tax** - total non-tax collections were $82 million, which were $7.3 million, or 9.8%, above the revised non-tax estimate of $74.7 million through December 2005.
- **Other financing sources** - collections from other financing sources, which consisted of legalized gambling, totaled $17.4 million. These collections were $1.9 million, or 9.9%, below the revised other financing sources estimate of $19.3 million through December 2005.

Table I compares actual cash collections to the revised estimate through the 1st quarter of FY 2006 for tax, non-tax, and other financing sources. Appendix I presents a graphical depiction of the information in Table I as well as other tables presented in this report.

---

\(^4\)Rounding may affect some calculations presented in this report.

\(^5\)The $753.7 million revised revenue estimate and $782.9 million in collections through the 1st quarter of FY 2006 are presented net of the Washington Convention Center Authority estimate and transfer and also do not include the estimate and collections for dedicated non-tax "O" type revenue.

Source: Comparative Report of Cash Collections by Funds, Revenues Financing the Appropriation: Fiscal Year 2006, December 2005, prepared by ORA

In conducting the analysis of cash collections through the 1st quarter of FY 2006, the Auditor compared the 1st quarter collection trends for the five prior fiscal years from 2002 through the 1st quarter of 2006. These comparisons are presented in Appendix II. During the five-fiscal year period, collections in each revenue category fluctuated from year to year. However, the Auditor notes that 1st quarter collections in the general sales and use taxes category steadily increased over the five-fiscal year period. On the other hand, 1st quarter collections in the income tax category decreased in FY 2003 but increased in FYs 2004 through the 1st quarter of 2006. Additionally, 1st quarter collections in the general property taxes category increased in FYs 2003 and 2005 but decreased in FYs 2004 and 2006. A discussion of the fluctuation in each of the tax and non-tax revenue categories is presented later in this analysis.

Appendix III presents a comparison of collections through the 1st quarter of FY 2006 to 1st quarter collections for FY 2005 in each tax category.

**GENERAL PROPERTY TAXES**

General property taxes include: (A) real property taxes, (B) personal property taxes, and (C) revenue from public space rentals. The FY 2006 revised estimate for general property taxes is $1.225 billion. Collections of general property taxes through the 1st quarter of FY 2006 totaled $11.3 million, which were:

- $6 million, or 34.6%, below the $17.3 million 1st quarter FY 2006 revised estimate; and
$2.7 million, or 19.2%, below collections for the same period in FY 2005.

Collections of general property taxes through the 1st quarter represented .9% of the annual total revised revenue estimate for this category. Table II compares actual collections of general property taxes to the revised estimate through the 1st quarter of FY 2006.

Source: Comparative Report of Cash Collections by Funds, Revenues Financing the Appropriation: Fiscal Year 2006, December 2005, prepared by ORA

A. **Real Property Tax Collections**

Real property tax collections through the 1st quarter totaled $9.95 million. These collections were $6.06 million, or 37.8%, below the $16 million revised estimate. The real property tax category is the largest component of general property taxes.

According to ORA officials, although 1st quarter collections of real property taxes were lower than the estimate, collections in the 1st quarter are not an accurate indicator of collections for the entire fiscal year. Collections in the 1st quarter historically represent late payments of the previous year’s real property tax bills. Real property taxes are due March 31st and September 15th of each year. Therefore, collections of real property taxes are expected to increase in the third and fourth quarters of the fiscal year.
The Auditor notes that real property tax refunds through the 1st quarter totaled $6.6 million and were $808,000, or 13.8%, higher than the CFO’s $5.8 million estimate. Also, refunds through the 1st quarter of FY 2006 were $408,000, or 6.5%, higher than refunds through the 1st quarter of FY 2005. Because real property tax collections are presented net of refunds, and refunds through the 1st quarter of FY 2006 were slightly higher than estimated, the slight increase in refunds may also have contributed to the decrease in collections in the real property tax category.

B. Personal Property Tax Collections

Personal property tax collections through the 1st quarter totaled $1.1 million. These collections were $208,000, or 16%, below the $1.3 million estimate. The annual due date for personal property tax returns is July 31st. Therefore, according to ORA officials, collections in the 1st quarter may represent 2005 late payments rather than overall economic activity that may impact personal property tax payments.

C. Public Space Rental Fees

Public space rental fees collected through the 1st quarter of FY 2006 totaled $275,000. ORA officials did not present a 1st quarter estimate for public space rental fees. Pursuant to D.C. Act 16-206, effective November 17, 2005, all revenue derived from the collection of public rights-of-way user fees, charges and penalties will be deposited into the Local Roads Construction and Maintenance Fund, which shall be separate from the General Fund. Therefore, according to ORA officials, future revenue from public space rental fees will be reported as dedicated non-tax "O" type revenue.7

Since general property tax collections were below the estimate through the 1st quarter, District finance officials should monitor this tax category closely for the remainder of FY 2006.

---

7 According to an OTR Financial Reporting Manager, the $275,000 will be transferred to the Local Roads Construction and Maintenance Fund.
GENERAL SALES AND USE TAXES

The FY 2006 revised estimate for general sales and use taxes is $795.5 million.\(^8\) Collections of general sales and use taxes through the 1st quarter totaled $193.7 million, which were:

- $2 million, or 1.1%, above the $191.7 million 1st quarter revised FY 2006 estimate;
- $964,000, or .5%, above collections for the same period in FY 2005.

General sales and use tax collections through the 1st quarter represented 24% of the total FY 2006 revised estimate for this category. Table III compares actual collections to the revised estimate through the 1st quarter of FY 2006.

Source: Comparative Report of Cash Collections by Funds, Revenues Financing the Appropriation: Fiscal Year 2006, December 2005, prepared by ORA

Collections of general sales and use taxes through the 1st quarter totaled $193.7 million. Actual collections through the 1st quarter were $2 million, or 1.1%, higher than the 1st quarter estimate. According to ORA officials, collections of general sales and use taxes depends not only on how well the local economy performs but also on the strength of the national economy. Also, according to the Federal Beige Book, tourism remained strong due, in part, to warmer than normal weather in late December 2005.

Based on collections patterns and emerging trends through the 1st quarter, it appears that the District is on course to achieve the FY 2006 revenue estimate in the general sales and use taxes category.

\(^8\)Presented net of dedicated tax revenue transferred to the Washington Convention Center Authority.
SELECTIVE SALES AND USE TAXES

Selective sales and use taxes include: (A) alcoholic beverage, (B) cigarette, and (C) motor vehicle excise taxes. The FY 2006 revised estimate for selective sales and use taxes is $67 million. Collections through the 1st quarter of FY 2006 totaled $17.5 million which were:

- $1.55 million, or 9.7%, above the $15.9 million 1st quarter FY 2006 revised estimate; and

- $1.5 million, or 9.2%, above collections for the same period in FY 2005.

Selective sales and use tax collections through the 1st quarter represented 26% of the total FY 2006 revised estimate for this category. Table IV compares actual collections to the revised estimate through the 1st quarter of FY 2006.

Source: Comparative Report of Cash Collections by Funds, Revenues Financing the Appropriation: Fiscal Year 2006, December 2005, prepared by ORA

A. Alcoholic Beverage Tax

Alcoholic beverage tax collections through the 1st quarter totaled $1.3 million. The collections were $106,000, or 8.8%, above the $1.2 million 1st quarter revised estimate.
B. **Cigarette Tax**

Cigarette tax collections through the 1st quarter totaled $5.8 million. These collections were $804,000, or 16%, above the $5 million revised estimate.

C. **Motor Vehicle Excise Tax**

Motor vehicle excise tax collections through the 1st quarter totaled $10.3 million. These collections were $641,000, or 6.6%, above the $9.7 million revised estimate.

Based on collections through the 1st quarter, it appears that the District is on course to achieve the revenue estimate in the selective sales and use taxes category in FY 2006.

**INCOME TAX**

Income tax includes: (A) individual income tax, (B) corporate franchise tax, and (C) unincorporated business franchise tax. The FY 2006 revised estimate for the income tax category is $1.435 billion. Collections through the 1st quarter of FY 2006 totaled $312 million which were:

- $13.7 million, or 4.6%, above the $298.4 million 1st quarter revised estimate; and
- $18 million, or 6.1%, above collections for the same period in FY 2005.

Income tax collections through the 1st quarter represented 22% of the total FY 2006 revised revenue estimate for this category. Table V compares actual collections to the revised estimate through the 1st quarter of FY 2006.

Source: Comparative Report of Cash Collections by Funds, Revenues Financing the Appropriation: Fiscal Year 2006, December 2005, prepared by ORA.
A. Individual Income Tax

Individual income tax collections through the 1st quarter totaled $245.7 million. This tax is the largest in the income tax category. These collections were $5.6 million, or 2.3%, above the $240.1 million revised estimate. The increase in individual income tax may be due, in part, to the fact that the District’s unemployment rate decreased in October and December 2005. Also, per capita personal income increased. The seasonally adjusted unemployment rate was: (1) 6.1% in October 2005, down .1% from the revised September 2005 rate; (2) 6.1% in November 2005, which was unchanged from October 2005; and (3) 6% in December 2005, which was down .1% from the November 2005 rate. District per capita personal income increased 7.5% to $54,985 in 2005 as compared to $51,155 in 2004.

Additionally, individual income tax refunds through the 1st quarter were $18.2 million. These refunds were $424,000, or 2.3%, below the $18.6 million estimate for the 1st quarter.

B. Corporate Franchise Tax

Corporate franchise tax collections through the 1st quarter totaled $43.9 million. The collections were $8.4 million, or 23.8%, above the $35.5 million revised estimate. According to DOES, the number of District jobs increased by 5,600 during the 1st quarter of FY 2006. Further, according to DOES, the District gained a total of 11,700 jobs during the 12 months ending December 2005. The increased job growth in the District may indicate corporate profits are beginning to increase. Additionally, according to a local economist, there has been increased federal procurement spending in the Washington metropolitan area. Federal contracting is the principal driver behind the areas’s strong job growth. In 2004, the Washington metropolitan area added 64,200 new jobs. Federal procurement spending continues to increase with a resultant increase in job growth. The growth in jobs and increased spending may account, in part, for the increase in corporate franchise tax collections.

C. Unincorporated Business Franchise Tax

Unincorporated business franchise tax collections through the 1st quarter totaled $22.4 million. The collections were $402,000, or 1.8%, below the $22.8 million revised estimate. According to ORA representatives, many unincorporated business franchise taxpayers are partnerships associated with the real estate management industry. The fact that collections are below the estimate through the 1st quarter of FY 2006 may reflect a moderation in the real estate market.
Additionally, the first payment of this tax is due in January 2006, which should be reflected in 2nd quarter collections. The 1st quarter collections do not reflect the total economic activity related to this tax for FY 2006.

Based on collections through the 1st quarter, it appears that the District is on course to achieve the revised revenue estimate in the income tax category in FY 2006.

GROSS RECEIPTS TAXES

Gross receipts taxes include: (A) public utilities tax, (B) toll telecommunications tax, (C) a tax on insurance premiums, and (D) a healthcare provider tax. The revised estimate for gross receipts taxes is $249.7 million. Collections of gross receipts taxes through the 1st quarter of FY 2006 totaled $50.4 million, which were:

- $1.3 million, or 2.7%, above the $49.1 million 1st quarter revised estimate; and
- $1.1 million, or 2.1%, below collections for the same period in FY 2005.

Gross receipts tax collections through the 1st quarter represented 20.2% of the total FY 2006 revised estimate for this category. Table VI compares actual collections to the revised estimate through the 1st quarter of FY 2006.

<td><strong>2.7%</strong></td>
</tr>
</tbody>
</table>

Source: Comparative Report of Cash Collections by Funds, Revenues Financing the Appropriation: Fiscal Year 2006, December 2005, prepared by ORA.
A. **Public Utilities Tax**

Public utilities tax collections through the 1st quarter totaled $36.7 million. The collections were $302,000, or .8%, above the $36.4 million revised estimate. The strength in these collections through the 1st quarter may be due, in part, to increased profits collected by utility companies. According to the Consumer Price Index for the Washington/Baltimore area, utility gas service prices increased in October and November 2005. In December 2005, electricity prices increased as compared to November 2005 but decreased in both October and November 2005 as compared to previous months. This may account for the modest .8% increase over the estimate. Additionally, electricity and utility gas service prices for October, November, and December 2005 were all higher than 2004 service prices. The public utility tax is imposed on the gross receipts of utility companies. Therefore, increased revenue to these companies may result in increased gross receipts tax payments to the District.

B. **Toll Telecommunications Tax**

Toll telecommunications tax collections through the 1st quarter totaled $13.6 million. The collections were $1 million, or 8.2%, above the $12.6 million revised estimate. One reason revenue is above the estimate in this tax category is that companies are offering a variety of new products and services for Blackberry and mobile telephone users leading to an increase in sales for telephone companies. The toll telecommunications tax is imposed on the gross receipts of telephone companies. Increased revenue to these companies may have resulted in increased toll telecommunications tax revenue to the District.

C. **Insurance Premium Tax**

Insurance premium tax collections through the 1st quarter totaled $42,000. The collections were $8,000, or 15.7%, below the $50,000 revised estimate. Collections for the 1st quarter of FY 2006 were 950% higher than collections during the same period in FY 2005. This tax is due in March of each year, therefore collections through the 1st quarter do not fully reflect the economic activity for this tax.

D. **Healthcare Provider Tax**

ORA did not report the estimate nor any collections for the healthcare provider tax in the cash collections report for the 1st quarter of FY 2006. Also, ORA officials have not yet decided if future collections of this tax will be reported as non-dedicated "O" type revenue or as general purpose, general fund revenue.
Based on collections through the 1st quarter, it appears that the District is on course to achieve the revenue estimate in the gross receipts taxes category in FY 2006.

OTHER TAXES

Other Taxes include: (A) estate, (B) deed recordation, (C) deed transfer, and (D) economic interest transfer taxes. The FY 2006 revised estimate for other taxes is $328 million. Collections of Other Taxes through the 1st quarter of FY 2006 totaled $98.6 million, which were:

- $11.3 million, or 12.9%, above the $87.3 million 1st quarter revised estimate; and
- $16.6 million, or 20.3%, above collections for the same period in FY 2005.

Collections of other taxes through the 1st quarter represented 30% of the total FY 2006 revised revenue estimate for this category. Table VII compares actual collections to the revised estimate through the 1st quarter of FY 2006 for Other Taxes.

Source: Comparative Report of Cash Collections by Funds, Revenues Financing the Appropriation: Fiscal Year 2006, December 2005, prepared by ORA

A. **Estate Tax**

Estate tax collections through the 1st quarter totaled $10.7 million. The collections were $2.7 million, or 33.9%, above the $8 million revised estimate. Collections from this revenue source are difficult to estimate due to the unpredictable event that triggers the tax.
B. Combined Deed Recordation and Transfer Taxes

Combined deed recordation and transfer tax collections through the 1st quarter totaled $85.5 million. These combined collections were $7.05 million, or 9%, above the $78.5 million revised estimate. Increased collections of these taxes may be due, in part, to the fact that transfers of District commercial property may have been higher than estimated.

C. Economic Interest Tax

Economic interest tax collections through the 1st quarter totaled $2.3 million. The collections were $1.5 million, or 192.1%, above the $783,000 revised estimate. This tax is imposed on the amount paid for the transfer of ownership interest in a corporation. According to ORA representatives, this tax is difficult to forecast because of its unpredictable nature or the infrequent transfer of corporate ownership interests in the District of Columbia.

Based on collections through the 1st quarter, it appears that the District is on course to achieve the revenue estimate in the Other Taxes category in FY 2006.

NON-TAX REVENUE

Non-tax revenue includes: (A) licenses and permit fees, (B) fines and forfeitures, (C) charges for services, and (D) miscellaneous revenue. The FY 2006 revised estimate for non-tax revenue is $313.7 million. Collections through the 1st quarter totaled $82 million, which were:

- $7.3 million, or 9.8%, above the $74.7 million 1st quarter revised estimate; and
- $17.1 million, or 26.4%, above collections for the same period in FY 2005.

Non-tax revenue collections through the 1st quarter represented 26% of the total FY 2006 revised estimate for this category. Table VIII compares non-tax revenue collections to the revised estimate through the 1st quarter of FY 2006.

Source: Comparative Report of Cash Collections by Funds, Revenues Financing the Appropriation: Fiscal Year 2006, December 2005, prepared by ORA

A. **Licenses and Permit Fees**

Licenses and permit fees collected through the 1st quarter totaled $12.1 million. Collections were $638,000, or 5%, below the $12.8 million revised estimate. As discussed below, the estimate for licenses and permit fees is developed by agencies administering the related program, not ORA. Therefore, the Auditor recommends that ORA review these agencies’ methodology for developing the revenue estimate in this category to ensure that it is reasonable, reliable, and achievable.

B. **Fines and Forfeitures**

Fines and forfeitures collected through the 1st quarter totaled $29.6 million. The collections were $3.1 million, or 11.8%, above the $26.5 million revised estimate. Collections were above the revenue estimate primarily because of increased traffic fine collections.

C. **Charges for Services**

Charges for services collected through the 1st quarter totaled $7.51 million. The collections were $2 million, or 21.3%, below the $9.54 million revised estimate. Collections were below the estimate, in part, because of the slowdown in the real estate market. The number of property sales has decreased which has resulted in a decrease in deed and corporate recordation fees. For example, according to GCAAR, settlements of single family homes in October, November, and December 2005 were all below the same period in 2004.
D. Miscellaneous Revenue

Miscellaneous revenue includes: (1) interest income, (2) unclaimed property, (3) sale of surplus property, (4) other transfer,\(^9\) and (5) other revenue.\(^\text{10}\) Miscellaneous revenue collected through the 1\(^{\text{st}}\) quarter totaled $32.8 million. The collections were $6.9 million, or 26.4%, above the $25.9 million revised estimate. Collections were higher than the estimate, in part, because of higher than expected collections of unclaimed property. Collections in the miscellaneous revenue category through the 1\(^{\text{st}}\) quarter of FY 2006 were 29.4% higher than collections for the same period in FY 2005.

Based on collections through the 1\(^{\text{st}}\) quarter, it appears that the District is on course to achieve the revenue estimate in the non-tax revenue category in FY 2006.

OTHER FINANCING SOURCES

Other financing sources consist of legalized gambling transfers to the General Fund from the D.C. Lottery. The FY 2006 revised estimate for other financing sources is $73.1 million. Collections through the 1\(^{\text{st}}\) quarter totaled $17.4 million which were:

\begin{itemize}
  \item $1.9 million, or 9.9%, below the $19.3 million 1\(^{\text{st}}\) quarter revised estimate; and
  \item $1.9 million, or 11.9%, above collections for the same period in FY 2005.
\end{itemize}

Collections from other financing sources through the 1\(^{\text{st}}\) quarter represented 24% of the total FY 2006 revised estimate for this category. Table IX compares actual collections to the estimate through the 1\(^{\text{st}}\) quarter of FY 2006.

\(^9\)Includes the WASA Pilot Transfer.

\(^\text{10}\)Includes revenue such as dishonored checks, payroll service fees, or other revenue from agencies.

Source: Comparative Report of Cash Collections by Funds, Revenues Financing the Appropriation: Fiscal Year 2006, December 2005, prepared by ORA

A. Legalized Gambling

Legalized gambling transfers to the General Fund from the D.C. Lottery through the 1st quarter totaled $17.4 million. The transfers were $1.9 million, or 9.9%, below the $19.3 million revised estimate. According to the D.C. Lottery’s Fiscal Officer and a review of D.C. Lottery reports, collections were below the estimate, in part, because of prize payouts related to the D.C. Four game. Lottery officials budgeted approximately 49% for prize payouts on the D.C. Four game, however, actual prize payouts through the 1st quarter were approximately 74%.

DEDICATED NON-TAX “O” TYPE REVENUE

The dedicated non-tax “O” type revenue estimate for FY 2006 is $264.3 million. Collection of dedicated non-tax “O” type revenue through the 1st quarter of FY 2006 totaled $44.5 million. These collections were $275,000, or .6%, below the $44.8 million 1st quarter revised estimate. Collections through the 1st quarter of FY 2006 were $5.7 million, or 14.8%, above the $38.8 million in collections for the same period in FY 2005.

Based on collections through the 1st quarter, it appears that the District is on course to achieve the revenue estimate in the dedicated non-tax “O” type revenue category in FY 2006.

CONCLUSION

Overall, the Auditor’s analysis indicated that actual cash collections were above the revised estimate through the 1st quarter of FY 2006. The District’s cash collections through December 2005 (excluding dedicated non-tax “O” type revenue) totaled $782.9 million, which were $29.2 million, or 3.9%, above the $753.7 million revised estimate through the 1st quarter. The $782.9 million in actual cash collections represented 17% of the total $4.487 billion revised FY 2006 revenue estimate.
Based on our review and analysis of economic data from various sources as well as revenue collection patterns through the 1st quarter, it appears that the District is on course to achieve the $4.487 billion FY 2006 revised revenue estimate.

Respectfully submitted,

[Signature]
Deborah K. Nichols
District of Columbia Auditor
