Letter Report: Comparative Analysis of Actual Cash Collections to the Revised Revenue Estimate Through the 2nd Quarter of Fiscal Year 2008

September 24, 2008
The Honorable Vincent C. Gray
Chairman
Council of the District of Columbia
1350 Pennsylvania Avenue, NW, Suite 504
Washington, D.C. 20004

**Letter Report**: Comparative Analysis of Actual Cash Collections to the Revised Revenue Estimate Through the 2nd Quarter of Fiscal Year 2008

Dear Chairman Gray and Members of the Council of the District of Columbia:

This letter report presents the Office of the District of Columbia Auditor’s (ODCA) comparison of the District of Columbia’s (District) actual cash collections through the 2nd quarter of fiscal year (FY) 2008 to the revised FY 2008 revenue estimate for the 2nd quarter.

**BACKGROUND**

In May 2007, pursuant to the Home Rule Act, as amended by Public Law 104-8, 1 and Public Law 106-522, the District of Columbia Appropriations Act for Fiscal Year 2001, 2 the District’s Chief Financial Officer (CFO) issued a certified FY 2008 original revenue estimate of $5.165 billion. 3 The $5.165 billion non-dedicated Local Fund revenue estimate was used as the baseline for the FY 2008 budget. Revisions to the $5.165 billion estimate are presented below:

---

1. See Pub. L. 104-8, (109 Stat; D.C. Code Section 1-204.24c(5) (A) and (B)).

3. See FY 2008 Proposed Budget and Financial Plan, Volume 1, Executive Summary, dated June 7, 2007, page 4-16, “Operating Revenue by Source, Fiscal Years 2006 - 2011.” The FY 2008 revenue estimate presented in this report represents the non-dedicated local fund revenue estimate and does not include the FY 2008 special purpose revenue fund (O-type) estimate of $367.03 million. However, an overall discussion of special purpose revenue fund (O-type) is included in a later section of this report.
GENERAL SALES AND USE TAXES

The FY 2008 revised estimate for general sales and use taxes is $751.2 million.\textsuperscript{13} Collections of general sales and use taxes through the 2\textsuperscript{nd} quarter totaled $422.08 million, which were:

\begin{itemize}
  \item $941,000, or .2%, above the $421.14 million 2\textsuperscript{nd} quarter revised FY 2008 estimate; and
  \item $2.6 million, or .6%, above collections for the same period in FY 2007.
\end{itemize}

General sales and use tax collections through the 2\textsuperscript{nd} quarter represented 56% of the total FY 2008 revised estimate for this category. Table III compares actual collections to the revised estimate through the 2\textsuperscript{nd} quarter of FY 2008.

\begin{table}[h]
\centering
\caption{General Sales and Use Taxes: Comparison of Actual Cash Collections to the Revised Estimate Through the 2\textsuperscript{nd} Quarter of Fiscal Year 2008 (\textdollar 000)\label{table:general_sales_use_taxes}}
\begin{tabular}{|l|c|c|c|c|}
\hline
General Sales and Use Taxes & Actual Collections Through the 2\textsuperscript{nd} Quarter FY 2008 & Revised Estimate Through the 2\textsuperscript{nd} Quarter FY 2008 & Difference: Actual Over/(Under) Revised Estimate & Percentage Difference \\
\hline
General Sales and Use Taxes & $422,081 & $421,140 & $941 & 0.2\% \\
\hline
\end{tabular}
\end{table}

Collections of general sales and use taxes through the 2\textsuperscript{nd} quarter totaled $422.08 million. Actual collections through the 2\textsuperscript{nd} quarter were $941,000, or .2%, above the $421.14 million revised 2\textsuperscript{nd} quarter estimate. The fact that collections of general sales and use taxes were only slightly above the estimate may be due, in part, to the national economic slowdown resulting in a decrease in the number of visitors to the District. According to data obtained from WDCCTC, hotel occupancy rates for the 2\textsuperscript{nd} quarter of FY 2008 were, on average, approximately 1.4% lower than the average occupancy rates for the same period in FY 2007. Also, total room revenue for the 2\textsuperscript{nd} quarter of FY 2008 was approximately $7.4 million lower than room revenue for the 2\textsuperscript{nd} quarter of FY 2007.

\textsuperscript{13}Presented net of dedicated general sales and use taxes transferred to other dedicated purposes including the Washington Convention Center Authority.
In September 2007, the CFO revised the estimate upward to $5.188 billion\(^4\) which was a net increase of $23.5 million over the $5.165 billion FY 2008 original revenue estimate.

In December 2007, the CFO revised the FY 2008 revenue estimate upward to $5.238 billion\(^5\) which was a net increase of $49.9 million over the $5.188 billion September 2007 revenue estimate, and a $73 million increase over the $5.165 billion FY 2008 original revenue estimate;

In February 2008, the CFO revised the FY 2008 revenue estimate upward to $5.242 billion\(^6\) which was a net increase of $4.2 million over the $5.238 billion December 2007 estimate, a $54 million increase over the $5.188 billion September 2007 revenue estimate, and a $77 million increase over the $5.165 billion FY 2008 original revenue estimate.

**METHODOLOGY**

In conducting the comparative analysis, the Auditor reviewed: (1) the $5.242 billion estimate; (2) the FY 2008 2\(^{nd}\) quarter Comparative Report of Cash Collections by Funds prepared by the Chief Financial Officer’s Office of Revenue Analysis (ORA); and (3) other relevant information. Additional information reviewed by the Auditor included economic data from several sources, including The Conference Board, the George Mason University of Regional Analysis, Eagle Eye Inc., the District’s Department of Employment Services (DOES), the Office of Finance and Treasury (OFT), the Greater Capital Area Association of Realtors (GCAAR), United States Department of Labor, Bureau of Labor Statistics (BLS), the District of Columbia Lottery and Charitable Games Board (D.C. Lottery), and the Washington, D.C. Convention and Tourism Corporation (WDCCTC).

The Auditor interviewed ORA officials regarding cash collections through the 2\(^{nd}\) quarter of FY 2008 and representatives from other governmental organizations regarding their knowledge of overall economic conditions that affect the District.

---

\(^4\)The CFO certified additional revenue of $30.2 million. The FY 2008-FY 2011 Budget and Financial Plan, dated June 7, 2007, included $6.7 million of policy changes. The $30.2 million in additional revenue, and the impact of the policy changes, totaling $6.7 million, resulted in a net increase of $23.5 million over the $5.165 billion May 2007 FY 2008 original revenue estimate.

\(^5\)The CFO certified additional revenue of $49.9 million.

\(^6\)The CFO certified additional revenue of $4.2 million.
RESULTS OF ANALYSIS

Actual cash collections from: (1) tax, (2) non-tax, and (3) other financing sources through the 2\textsuperscript{nd} quarter of FY 2008 totaled $2.2198 billion, which were $120 million, or 5.7\%, above the $2.1 billion revised estimate through the 2\textsuperscript{nd} quarter.\textsuperscript{7} The $2.2198 billion in actual cash collections represented 42.3\% of the $5.242 \ billion FY 2008 revised revenue estimate.\textsuperscript{8} Collections through the 2\textsuperscript{nd} quarter from tax, non-tax, and other financing sources are presented below.

\begin{itemize}
\item \textbf{Tax} - total tax collections were $2.042 billion, which were $125.46 million, or 6.5\%, \textit{above} the revised tax estimate of $1.916 billion through March 2008.
\item \textbf{Non-tax} - total non-tax collections were $143.96 million, which were $6.15 million, or 4.1\%, \textit{below} the revised non-tax estimate of $150.11 million through March 2008.
\item \textbf{Other financing sources} - collections from other financing sources, which consisted of legalized gambling, totaled $34.07 million. These collections were $712,000, or 2.1\%, \textit{above} the revised other financing sources estimate of $33.36 million through March 2008.
\end{itemize}

Table I compares actual cash collections to the revised estimate through the 2\textsuperscript{nd} quarter of FY 2008 for tax, non-tax, and other financing sources. Appendix I presents a graphical depiction of the information in Table I as well as other tables presented in this report.

\textsuperscript{7}Rounding may affect some calculations presented in this report.

\textsuperscript{8}The $2.1 billion revised revenue estimate and $2.2198 billion in collections through the 2\textsuperscript{nd} quarter of FY 2008 are presented net of funds transferred to dedicated purposes including the Washington Convention Center Authority. The estimate and transfer also does not include special purpose revenue fund (O-type).

In conducting the analysis of cash collections through the 2nd quarter of FY 2008, the Auditor compared the 2nd quarter collection trends for the five prior fiscal years from FY 2004 through the 2nd quarter of FY 2008. These comparisons are presented in Appendix II. During the five-fiscal year period, collections in each revenue category fluctuated from year to year. However, the Auditor notes that 2nd quarter collections in general property taxes, general sales and use taxes, and income taxes steadily increased over the five-fiscal year period. A discussion of the fluctuation in each of the tax and non-tax revenue categories is presented later in this report.

Appendix III presents a comparison of collections through the 2nd quarter of FY 2008 to 2nd quarter collections for FY 2007 in each tax category.

GENERAL PROPERTY TAXES

General property taxes include: (A) real property taxes, (B) personal property taxes, and public space rental. The FY 2008 revised estimate for general property taxes is $1.710 billion. Collections of general property taxes through the 2nd quarter of FY 2008 totaled $489.88 million, which were:

- $37.81 million, or 8.4%, above the $452.08 million 2nd quarter FY 2008 revised estimate; and
- $121.68 million, or 33%, above collections for the same period in FY 2007.
Collections of general property taxes through the 2nd quarter represented 29% of the annual total revised revenue estimate for this category. Table II compares actual collections of general property taxes to the revised estimate through the 2nd quarter of FY 2008.

**A. Real Property Tax Collections**

Real property tax collections through the 2nd quarter totaled $488.52 million. These collections were $38.22 million, or 8.5%, above the $450.31 million revised estimate. The real property tax category is the largest component of general property taxes.

The Auditor noted that real property tax refunds through the 2nd quarter totaled $3.72 million and were $6.68 million, or 64.2%, below the $10.4 million estimate. Refunds through the 2nd quarter of FY 2008 were also $5.8 million, or 61%, below refunds through the 2nd quarter of fiscal year 2007.

The fact that collections are above the estimate may be due, in part, to the strength of the real estate market in 2006.\(^10\) Collections of real property taxes were higher than the estimate for the 2nd quarter due, in part, to higher assessed values for taxable commercial and residential properties in the District.

---

\(^9\)Public space rental collections is not used for general fund purposes but are dedicated to the District Department of Transportation.

\(^10\)Property taxes billed in 2008 are based on a property's 2006 assessed value.
Based on a review of data reported in the District’s FY 2006 Comprehensive Annual Financial Report (CAFR), the total taxable portion of the combined assessed values for commercial and residential properties\(^1\) in the District increased each year from FYs 1999 through 2006. Overall, the assessed values for taxable properties increased over $56 billion, or 57%, from $42.4 billion in FY 1999 to $98.49 billion in FY 2006.

Total assessed values reported in the CAFR for residential property, however, did not reflect the impact of the “Owner-Occupant Residential Tax Credit Act of 2002,” D.C. Law 14-160, or the “Owner-Occupant Residential Tax Credit and Homestead Deduction Clarification Emergency Act of 2004.”\(^2\) The assessed values of residential properties also did not reflect the 2006 assessment cap of 10% for class 01 property with homestead exemptions. These laws may have resulted in reduced real property tax collections for some residential properties. However, real property assessed values for commercial properties, which were not governed by D.C. Law 14-160, the Emergency Act, and the 2006 assessment cap, increased over 54% from $18.73 billion in FY 1999 to $40.4 billion in FY 2006.

B. **Personal Property Tax Collections**

Personal property tax collections through the 2\(^{nd}\) quarter of FY 2008 totaled $1.355 million. These collections were $414,000, or 23.4%, below the $1.769 million revised estimate. The annual due date for personal property tax returns is July 31\(^{st}\). Therefore, according to ORA officials, collections in the 2\(^{nd}\) quarter may represent late payments of 2007 personal property taxes rather than overall economic activity that may relate specifically to 2008 personal property tax collections.

Based on actual collection patterns and emerging trends through the 2\(^{nd}\) quarter, it appears that the District is on course to achieve the FY 2008 revenue estimate in the general property taxes category.

---

\(^1\)Presented after deduction of homestead exemption and credits against tax.

\(^2\)The Council enacted the “Owner-Occupant Residential Tax Credit of 2002,” D.C. Law 14-160, which became effective June 25, 2002. The law stipulated that District homeowners will pay no property tax on assessments above 25% of the prior year’s assessment. Then, effective FY 2004, the Council passed the “Owner-Occupant Residential Tax Credit and Homestead Deduction Clarification Emergency Act of 2004,” which reduced the rate from 25% to 12%.
GENERAL SALES AND USE TAXES

The FY 2008 revised estimate for general sales and use taxes is $751.2 million.\textsuperscript{13} Collections of general sales and use taxes through the 2\textsuperscript{nd} quarter totaled $422.08 million, which were:

- $941,000, or .2%, above the $421.14 million 2\textsuperscript{nd} quarter revised FY 2008 estimate; and
- $2.6 million, or .6%, above collections for the same period in FY 2007.

General sales and use tax collections through the 2\textsuperscript{nd} quarter represented 56% of the total FY 2008 revised estimate for this category. Table III compares actual collections to the revised estimate through the 2\textsuperscript{nd} quarter of FY 2008.

<table>
<thead>
<tr>
<th>General Sales and Use Taxes</th>

</tr>
</thead>
<tbody>
<tr>
<td>General Sales and Use Taxes</td>
<td>$422,081</td>
<td>$421,140</td>
<td>$941</td>
<td>0.2%</td>
</tr>
</tbody>
</table>

Collections of general sales and use taxes through the 2\textsuperscript{nd} quarter totaled $422.08 million. Actual collections through the 2\textsuperscript{nd} quarter were $941,000, or .2%, above the $421.14 million revised 2\textsuperscript{nd} quarter estimate. The fact that collections of general sales and use taxes were only slightly above the estimate may be due, in part, to the national economic slowdown resulting in a decrease in the number of visitors to the District. According to data obtained from WDCCTC, hotel occupancy rates for the 2\textsuperscript{nd} quarter of FY 2008 were, on average, approximately 1.4% lower than the average occupancy rates for the same period in FY 2007. Also, total room revenue for the 2\textsuperscript{nd} quarter of FY 2008 was approximately $7.4 million lower than room revenue for the 2\textsuperscript{nd} quarter of FY 2007.

\textsuperscript{13}Presented net of dedicated general sales and use taxes transferred to other dedicated purposes including the Washington Convention Center Authority.
Also, collections of general sales and use taxes may be only slightly above the estimate because consumer confidence decreased sharply in the 2\textsuperscript{nd} quarter of FY 2008. According to information obtained from The Conference Board, Conference Board Consumer Confidence Index declined from 87.9 points in January 2008 to 64.5 points in March 2008. According to The Conference Board, "consumers' confidence in the state of the economy continues to fade and the Index remains at a five-year low." The declining consumer confidence may mean that consumers will spend less.

Although collections through the 2\textsuperscript{nd} quarter were higher than the estimate, District officials should monitor this tax category closely because of the slowdown in the economy. This slowdown may result in fewer tourists visiting the District thus resulting in reduced collections of general sales and use taxes.

\textbf{SELECTIVE SALES AND USE TAXES}

Selective sales and use taxes include: (A) alcoholic beverage, (B) cigarette, and (C) motor vehicle excise taxes. The FY 2008 revised estimate for selective sales and use taxes is $71.66 million. Collections through the 2\textsuperscript{nd} quarter of FY 2008 totaled $33.36 million, which were:

- $755,000, or 2.3\%, above the $32.61 million 2\textsuperscript{nd} quarter FY 2008 revised estimate; and
- $146,000, or .4\%, below collections for the same period in FY 2007.

Selective sales and use tax collections through the 2\textsuperscript{nd} quarter represented 46.5\% of the total FY 2008 revised estimate for this category. Table IV compares actual collections to the revised estimate through the 2\textsuperscript{nd} quarter of FY 2008.

</tbody>
</table>

A. **Alcoholic Beverage Tax**

Alcoholic beverage tax collections through the 2nd quarter totaled $2.572 million. These collections were $71,000, or 2.7%, below the $2.643 million revised estimate.

B. **Cigarette Tax**

Cigarette tax collections through the 2nd quarter totaled $10.212 million. These collections were $1.125 million, or 12.4%, above the $9.087 million revised estimate.

C. **Motor Vehicle Excise Tax**

Motor vehicle excise tax collections through the 2nd quarter totaled $20.576 million. These collections were $299,000, or 1.4%, below the $20.875 million revised estimate. ORA representatives could not identify any particular economic reason for the lower 2nd quarter collections.

Based on actual collection patterns and emerging trends through the 2nd quarter, it appears that the District is on course to achieve the FY 2008 revenue estimate in the selective sales and use taxes category.
INCOME TAXES

Income taxes include: (A) individual income tax, (B) corporate franchise tax, and (C) unincorporated business franchise tax. The FY 2008 revised estimate for the income taxes category is $1.745 billion. Collections through the 2nd quarter of FY 2008 totaled $741.25 million, which were:

- $41.50 million, or 5.9%, above the $699.75 million 2nd quarter revised estimate; and
- $23 million, or 3.2%, above collections for the same period in FY 2007.

Income taxes collected through the 2nd quarter represented 42.48% of the total FY 2008 revised revenue estimate for this category. Table V compares actual collections to the revised estimate through the 2nd quarter of FY 2008.

<table>

<td>$699,750</td>
<td>$41,499</td>
<td>5.9%</td>
</tr>
</tbody>
</table>

A. Individual Income Tax

Individual income tax collections through the 2nd quarter totaled $563.21 million. This tax is the largest in the income taxes category. These collections were $34.5 million, or 6.5%, above the $528.71 million revised estimate. The Auditor noted that collections from individual income withholding through the 2nd quarter totaled $499.62 million and were $3.36 million, or .7%, below the $503 million estimate through the 2nd quarter. On the other hand, individual income tax payments (amount owed to District government when a taxpayer files a return) totaled $64.35 million and were $37.42 million, or 139%, above the $26.93 million estimate through the 2nd quarter.
According to an ORA official, the increase in payments may be due to more electronic filers whose returns are usually processed more quickly through the system. However, the ORA official cautioned that given the present uncertainty in the economy, the results of the April tax filings will present a more accurate picture of the performance in the individual income tax category.

B. **Corporate Franchise Tax**

Corporate franchise tax collections through the 2nd quarter totaled $137.97 million. The collections were $18.31 million, or 15.3%, above the $119.66 million revised estimate. An ORA representative indicated that businesses in the District tend to be more sensitive to changes in federal procurement spending rather than changes in the general economic environment. According to information obtained from the George Mason University Center for Regional Analysis, Eagle Eye, Inc., federal procurement spending increased in 2007 as compared to 2005 and 2006. This increased federal procurement spending may account, in part, for the increase in corporate franchise tax collections.

C. **Unincorporated Business Franchise Tax**

Unincorporated business franchise tax collections through the 2nd quarter totaled $40.07 million. The collections were $11.3 million, or 22%, below the $51.38 million revised estimate. According to ORA representatives, many unincorporated business franchise taxpayers are partnerships associated with the real estate management industry. The unincorporated business franchise tax revenue is closely tied to the performance of the real estate market. Therefore, the lower than estimated collections may be due, in part, to the slowdown in the real estate market. Additionally, declarations (estimated tax payments) of unincorporated business franchise tax through the 2nd quarter of FY 2008 totaled $32.45 million. These declarations were $4.6 million, or 12.4%, below the estimate of $37.06 million through the 2nd quarter.

Although collections through the 2nd quarter in the income taxes category were higher than the estimate, District officials should monitor this tax category closely because of the slowdown in the real estate market and the overall economy. This slowdown may result in a reduction in employment and earnings, and may also affect collections of unincorporated business franchise tax.
GROSS RECEIPTS TAXES

Gross receipts taxes include: (A) public utilities tax, (B) toll telecommunications tax, and (C) insurance premium tax. The total FY 2008 revised estimate for the gross receipts taxes category is $246.05 million. Collections of gross receipts taxes through the 2nd quarter of FY 2008 totaled $134.76 million, which were:

- $8.8 million, or 7%, above the $125.97 million 2nd quarter FY 2008 revised estimate; and
- $1.79 million, or 1.3%, below collections for the same period in FY 2007.

Gross receipts taxes collected through the 2nd quarter represent 54.77% of the total FY 2008 revised estimate for this category. Table VI compares actual collections to the revised estimate through the 2nd quarter of FY 2008.

A. **Public Utilities Tax**

Public utilities tax collections through the 2nd quarter totaled $73.49 million. The collections were $710,000, or 1%, above the $72.78 million revised estimate. The fact that collections were above the estimate may result, in part, from increased energy costs. Based on data obtained from

---

14. The public utility tax is imposed on the gross receipts of television, radio and telephone companies; the usage per gallon for heating oil; per therm for natural gas; and per kilowatt hour for electric distribution.
the BLS, Washington-Baltimore area energy prices rose 3.8% over the last two months. As a result, consumers may have paid more to utility companies.

B. **Toll Telecommunications Tax**

Toll telecommunications tax collections through the 2nd quarter totaled $30.5 million. The collections were $2.67 million, or 9.6%, above the $27.83 million revised estimate.

C. **Insurance Premium Tax**

Insurance premium tax collections through the 2nd quarter totaled $30.77 million. The collections were $5.4 million, or 21.4%, above the $23.35 million revised estimate.

Based on collections patterns and emerging trends through the 2nd quarter, it appears that the District is on course to achieve the FY 2008 revenue estimate in the gross receipts taxes category.

**OTHER TAXES**

Other taxes include: (A) estate tax, (B) deed recordation tax, (C) deed transfer tax, and (D) economic interest transfer tax. The total FY 2008 revised estimate for the other taxes category is $321.79 million. Collections of other taxes through the 2nd quarter of FY 2008 totaled $220.48 million, which were:

- $35.67 million, or 19.3%, above the $184.81 million 2nd quarter FY 2008 revised estimate; and
- $13.39 million, or 5.7%, below collections for the same period in FY 2007.

Collections of other taxes through the 2nd quarter represented 68.52% of the total FY 2008 revised estimate for this category. Table VII compares actual collections to the revised estimate through the 2nd quarter of FY 2008 for other taxes.

</tbody>
</table>

A. Estate Tax

Estate tax collections through the 2\textsuperscript{nd} quarter totaled $40.52 million. The collections were $7.3 million, or 22.1\%, above the $33.19 million revised estimate. According to an ORA representative, estate tax revenue is dependent on two variables that are inherently difficult to predict: the number of deaths in any given year and the total value of a decedent’s estate which, in turn, depends on the performance of financial and real estate markets. An ORA representative indicated that this tax will be monitored closely and may be revised downward later in the fiscal year.

B. Combined Deed Recordation and Transfer Tax

Combined deed recordation and transfer tax collections through the 2\textsuperscript{nd} quarter totaled $134.40 million. The recordation tax is imposed on the recording of real estate deeds in the District while the transfer tax is imposed on each transfer of real property at the time the deed is submitted for recordation. These combined collections were $34.28 million, or 34.2\%, above the $100.12 million revised estimates. According to an ORA representative, the February estimate for the deed recordation and deed transfer tax may have been somewhat conservative. However, according to the representative, there continues to be a great deal of uncertainty in the credit markets and the ability of both residential and commercial purchasers to get loans to finance real estate purchases.
Further, according to data obtained from GCAAR, there was an overall average decline in contracts and settlements of single family homes and condos during the 2nd quarter of FY 2008 as compared to the 2nd quarter of FY 2007.

C. **Economic Interest Tax**

Economic interest tax collections through the 2nd quarter totaled $45.55 million. The collections were $5.9 million, or 11.6%, below the $51.50 million revised estimate. According to an ORA representative, this tax is difficult to forecast because of the infrequent transfer of corporate ownership interests in the District of Columbia. As a result, ORA does not attempt to estimate this tax using any economic factors.

Although collections through the 2nd quarter were higher than the estimate for other taxes, District officials should monitor this tax category closely because of the slowdown in the real estate market as well as the overall economy.

**NON-TAX REVENUE**

Non-tax revenue includes: (A) licenses and permit fees, (B) fines and forfeitures, (C) charges for services, and (D) miscellaneous revenue. The total FY 2008 revised estimate for the non-tax revenue category is $326.21 million. Collections through the 2nd quarter totaled $143.96 million, which were:

- $6.16 million, or 4.1%, below the $150.11 million 2nd quarter FY 2008 revised estimate; and
- $35.24 million, or 19.7%, below collections for the same period in FY 2007.

Non-tax revenue collections through the 2nd quarter represented 44% of the total FY 2008 revised estimate for this category. Table VIII compares non-tax revenue collections to the revised estimate through the 2nd quarter of FY 2008 for non-tax revenue.

</tr>
</tbody>
</table>

A. **Licenses and Permit Fees**

Licenses and permit fees collected through the 2nd quarter totaled $33.64 million. Collections were $711,000, or 2.1%, below the $34.35 million revised estimate. According to an ORA representative, collections of licenses and permit fees were below the estimate, in part, due to lower than expected collections in building related licenses and permit fees.

B. **Fines and Forfeitures**

Fines and forfeitures collected through the 2nd quarter totaled $52.27 million. The collections were $4.2 million, or 8.8%, above the $48.04 million revised estimate. Fines and forfeiture collections were above the estimate, in part, due to greater than expected collections from traffic fines and collections from red light cameras.

C. **Charges for Services**

Charges for services collected through the 2nd quarter totaled $19.3 million. The collections were $954,000, or 4.7%, below the $20.26 million revised estimate.
D. Miscellaneous Revenue

Miscellaneous revenue includes: (1) interest income, (2) unclaimed property, (3) sale of surplus property, (4) other transfers, and (5) other revenue. Miscellaneous revenue collected through the 2nd quarter totaled $38.75 million. The collections were $8.7 million, or 18.4%, below the $47.46 million revised estimate for the 2nd quarter. The fact that collections were below the estimate may be due, in part, to a decrease in short-term interest rates, thus resulting in reduced interest income to the District from earnings on short-term investments. According to information obtained from OFT, the average interest rate for pooled cash investments through the 2nd quarter of FY 2007 was approximately 5.18% while the average rate through the 2nd quarter of FY 2008 decreased to approximately 3.75%.

Since collections of non-tax revenues were below the estimate through the 2nd quarter, District finance officials should monitor this tax category closely for the remainder of FY 2008.

OTHER FINANCING SOURCES

Other financing sources consist of legalized gambling transfers to the General Fund from the D.C. Lottery. The total FY 2008 revised estimate for the other financing sources category is $70 million. Collections through the 2nd quarter totaled $34.75 million which were:

- $712,000, or 2.1%, above the $33.63 million 2nd quarter FY 2008 revised estimate; and
- $4.48 million, or 15.1%, above collections for the same period in FY 2007.

Collections from other financing sources through the 2nd quarter represented 49.6% of the total FY 2008 revised estimate for this category. Table IX compares actual collections to the estimate through the 2nd quarter of FY 2008.

---

15 Includes the WASA Pilot (payment in lieu of taxes) Transfer.

16 Includes revenue from dishonored checks, payroll service fees, or other revenue from agencies.

<th>Difference: Actual Over/(Under) Revised Estimate</th>
<th>Percentage Difference</th>
</tr>
</thead>
<tbody>
<tr>
<td>Legalized Gambling</td>
<td>$34,075</td>
<td>$33,363</td>
<td>$712</td>
<td>2.1%</td>
</tr>
</tbody>
</table>

Legalized gambling (transfers to the General Fund from the D.C. Lottery) through the 2<sup>nd</sup> quarter totaled $34.08 million. The transfers were $712,000, or 2.1%, above the $33.63 million revised 2<sup>nd</sup> quarter estimate. Collections were above the estimate, in part, because overall prize payouts were approximately $4.2 million less through the 2<sup>nd</sup> quarter of FY 2008 as compared to the same period in fiscal year 2007.

**SPECIAL PURPOSE REVENUE FUND (O-TYPE)**

The special purpose revenue fund (O-type) estimate for FY 2008 is $367.03 million. Collection of special purpose revenue funds (O-type) through the 2<sup>nd</sup> quarter of FY 2008 totaled $189.37 million. These collections were $4.4 million, or 2.4%, above the $184.99 million 2<sup>nd</sup> quarter revised estimate. Collections through the 2<sup>nd</sup> quarter of FY 2008 were $47.65 million, or 33.6%, above the $141.72 million in collections for the same period in FY 2007.

Based on collection patterns and emerging trends through the 2<sup>nd</sup> quarter, it appears that the District is on course to achieve the FY 2008 revenue estimate in the special purpose revenue fund (O-type) category.
CONCLUSION

The Auditor’s analysis indicated that, overall, actual cash collections were above the revised estimate through the 2nd quarter of FY 2008. The District’s cash collections through March 2008 (excluding special purpose revenue fund, O-type) totaled $2.2198 billion, which were $120 million, or 5.7%, above the $2.1 billion revised estimate through the 2nd quarter. The $2.2198 billion in actual cash collections represented 42.3% of the total $5.242 billion revised FY 2008 revenue estimate.

Specifically, collections were above the estimate through the 2nd quarter in the following categories: 1) general property taxes; 2) general sales and use taxes; 3) selective sales taxes; 4) income taxes; 5) gross receipts taxes; 6) other taxes; 7) fines and forfeitures; and 8) legalized gambling (transfers to the General Fund from the D.C. Lottery). Collections were also above the estimate for the special purpose revenue fund (O-type). On the other hand, collections were below the estimate in the following categories: 1) licenses and permits; 2) charges for services; and 3) miscellaneous revenue. The Auditor believes that a more in-depth examination into the specific reasons why collections are below the estimates should be conducted by ORA and reported to the Auditor.

Based on our review and analysis of economic data from various sources, as well as revenue collection patterns through the 2nd quarter, it appears overall that the District is on course to achieve the $5.242 billion FY 2008 revised revenue estimate.

Respectfully submitted,

[Signature]
Deborah K. Nichols
District of Columbia Auditor
